

TELESCOPE '67

TELESCOPE 64 *Years* your primary source for both wood and aluminum OF MANUFACTURING SUMMER AND CASUAL FURNITURE

The many buildings which comprise the Telescope factory are situated in the heart of a rich timberland. Owning its own forests, Telescope appreciates the qualities of furniture hardwoods, uses only the best grades. Experienced Telescope craftsmen are equipped with the most modern metal and woodworking machinery, employ the newest mass production techniques. Is it any wonder, then, that Telescope has been synonymous with quality folding furniture for over half a century?

Note plant expansion in right foreground this side of railroad track — new shipping warehouse and production facilities.
