*** A Word About Telescope Plastic Tubing**
Telescope originally introduced Plastic Tube in the outdoor furniture field, and each year has improved it's resiliency, comfort and weatherability through it's testing and Quality Control Program.

... cool, comfortable, Plastic Tubing with its natural built-in cushion of air, lightweight, toteable, foldable, for the patio, porch or poolside. In Four Colors: Yellow, Brown, Green or White. Continuous double wrapping of Plastic Tubing for a second layer of support on both the seat and back of chairs and chaises. Friendly to the touch hardwood arms, plastic caps complete the picture.

Quality Control

Telescope uses only the finest quality materials in its products. Our own testing laboratories, plus independent testing laboratories, insures quality standards and continuous product improvement. Our factory location in upstate New York, adjacent to the Vermont border, gives Telescope a skilled group of craftsmen.

Publicity

Telescope's summer and casual furniture receives national publicity in many of the leading 'shelter' magazines, and it's exposure on TV constantly reminds your customers of this leading national brand that is available from you. By choosing Telescope you tie in with a name your customers know and respect.

This year Telescope is celebrating it's 75th Anniversary and it seemed appropriate to show on our front cover some of the Telescope family at the Annual Summer Picnic, some you'll recognize, some you know only as voices on the other end of the phone, and a lot of others 'behind the scenes' make it possible for all of us to enjoy success year after year.

Note: Other photos throughout the Catalog were taken at Cypress Gardens, Florida, and the Telescope Staff appreciated the 'Southern Hospitality' of the Cypress Gardens Staff on our photographic safari.
