

A woman with long brown hair, wearing a white short-sleeved shirt with black polka dots and dark shorts, is sitting at a round white metal table. She is smiling and resting her head on her hands. The table has two glasses of amber liquid on it. The table and four matching chairs are on a dark wooden deck. The chairs have white frames and light blue mesh backs with horizontal stripes in blue, red, and green. A large patio umbrella with a white top and a blue skirt with red, orange, and green stripes is positioned over the table. The background shows a green lawn, a body of water, and trees under a clear blue sky.

The Newport™ Group

Wood furniture in natural or white is warm and friendly to the touch . . . its inviting and eye-appealing. The table top is made of selected hardwood slats and has folding hardwood legs. The chairs are designed with comfort in mind, with scooped seats and backs to help assure complete relaxation. No other material rivals the natural appeal of wood, and with Telescope's expertise . . . the furniture looks good, provides comfortable seating and folds compactly for storage.

Telescope's manufacturing plant, warehouse facilities, and executive offices are located in upstate New York, near the Vermont border. All Telescope furniture is manufactured here in this plant in Granville, New York. Selected Northern hardwoods from our own timberlands and nearby Vermont woodlands, are processed here, using mass production techniques and modern, automatic metal and woodworking machinery. Skilled Vermont and New York craftsmen have made the name 'Telescope' synonymous with quality for over 70 years. Additional warehousing facilities, with selected products, are in St. Petersburg, Florida; Dallas, Texas; Los Angeles, California; and Waipahu, Hawaii.
