

TELESCOPE

1987 Casual Furniture

American made quality since 1903.

When the firm was founded in 1903, its name "Telescope Cot Bed Company" aptly described its output. Wood parts for the cots were produced in Telescope, Pennsylvania, then shipped to the factory in New York City for assembly and sales. Telescope was the major supplier of government cots for our armed forces during the World Wars and the Korean Conflict.

Many changes have taken place since then. In the early 1920's, the firm moved to its present location in Granville, New York. In 1954, The Telescope Folding Furniture Co., Inc. began manufacturing summer and casual furniture in folding aluminum. In 1973, production was expanded to include a powder coated, baked on finish.

Known as the "home of the world-famous director chair," Telescope has also produced hand crafted wood furniture for over eight decades.

Now called Telescope Casual Furniture, Inc., we continue to offer the finest quality, most extensive line of leisure furniture on the market today.

Our product line may change, our name may change. But one thing remains.

Telescope. Because quality never goes out of style.

SummitTM

Grey Frame

The Summit collection offers sophisticated styling, with its distinctive framing fashioned in contemporary rectangular tubed aluminum. The lustrous baked-on polyester finish is available in grey, white and vanilla. Sleek Telaweave™ mesh or Sunbrella® cushions exclusively feature end flaps which tuck into frame for secure seating. All cushions are stuffed with a rain-thru polyurethane foam and wrapped with a polyester fibre batting. Plastic caps or glides on legs help to prevent marring of patio areas.

Dorset™

White Frame

A unique frame design in contemporary rectangular tubed aluminum and exclusive Telescope patterns mark the debut of this exciting cushion collection. Plush, tufted cushions are available in both Telaweave™ Mesh and Sunbrella® fabrics. Stuffed with a rain-thru polyurethane foam and wrapped with a polyester fibre batting, they breathe for cool, comfortable seating. Strong vinyl strapping is used for seat and back supports. The powder coated, baked on polyester finish resists corrosion and chipping under normal usage. Plastic tips or glides help prevent surface marring. Dorset frames stack for easy storage.

Saratoga™

White Frame

Saratoga's contemporary frame and cushion styling make it a winning combination! The all-welded, twin-tubed aluminum frame is finished with a powder-coated, baked-on polyester that resists corrosion and chipping under normal usage. All cushions in this group are woven vinyl-coated polyester mesh, stuffed with a rain-thru polyurethane foam and wrapped with a polyester fibre batting. They breathe for cool, comfortable seating. Strong vinyl strapping is used for back and seat supports. Plastic tips or glides on legs help to prevent marring of patios or decks.

PrimeraTM

Grey Frame

The Primera collection combines sleek lines, sweeping contours and generous proportions for an impressive concept in casual elegance. Captivating seating patterns in contemporary colors will enhance any setting. This stylish design of all welded, rectangular aluminum framing is finished with a powder coated, baked-on polyester that resists corrosion and chipping under normal usage. The easily cleaned vinyl mesh seating material breathes for cool comfort. All furniture has tips or glides on legs to help prevent marring of surfaces.

Gardenella®

White Frame

Gardenella's sleek, contemporary design has made it a renowned favorite. Available in both Sunbrella® and Telaweave™ Mesh fabrics, the slings have spline edges which insert into the frame to allow for replacement, if desired. Gardenella's framing is constructed with heavy duty tubular aluminum and finished with a baked-on polyester that is durable and resists chipping. Plastic caps or glides help prevent surface marring.

From an intimate setting for two, to a festive affair for six at our spacious rectangular dining table, these cafe chairs are sure to satisfy. Designed specifically for casual dining, cafe chairs feature soft padded seats, a supportive back design and a rigid, twin-tubed leg construction for stability. Vinyl seating material is heat sealed and cleans easily. The durable, welded frame has a powder-coated, baked-on polyester finish that resists corrosion and chipping under normal use. Plastic tips or caps help prevent surface marring.

Acratek™ Umbrella Tables

Designed and manufactured exclusively by Telescope, the Acratek™ molded top is extremely durable. With superior characteristics, this top is weather-resistant, sunfast and has a hard acrylic surface. It also features a unique slide resistant, easy to clean, linen textured surface for increased dining pleasure and practicality. This reinforced, molded acrylic-finished top has met stringent testing to insure maximum, long lasting performance. All table legs are constructed with heavy duty tubular aluminum with a baked on polyester finish. All tables are easily assembled. Plastic tips on legs help to prevent marring.

The Tall Ones

Handy, tall hardwood director chairs are great for use in tennis and swim clubs, concession stands, television, movie, and photography studios. The Tall Ones feature swivel glides that help prevent marring of surfaces, and a non-sag back design for lasting support. Seating heights of 24" or 30" make them ideal for counter and bar use. Frames are available in three finishes; White, Varnish or Walnut-Stain.* Seats and backs slip on easily, no tools needed. For complete selection of seat and back covers, see pages 57 and 58.

Padded Recovers

Polyester Padded Recover

This versatile recover offers maximum seating comfort, indoors or out. 1 1/2" thick, rigid constructed, foam padded backs, and 1" thick foam padded seats insure luxurious long lasting use. The pads are covered with a heavy woven, texturized polyester duck fabric, available in standard colors to match any residential or commercial decor. Material is sunfast, quick drying, mildew-resistant, and water and stain repellent. Great for dining or entertaining. These padded recovers slip on easily, no tools needed. They fit all Telescope director chairs.
