The Finest Director Chairs In The World

The solid hardwood in Telescope's director chairs is hand selected from Telescope's own timberlands in Vermont and New York. It passes through our two sawmills and is patiently processed in our six dry-kilns to assure the proper moisture control. Our woodworking, assembly, and finishing facilities complete the process with meticulous care.

We control every step of the process of manufacturing our director chair frames right here in the U.S.A. so that the customer will be assured of receiving the finest possible product.

1. Non-sag back feature

2. Frames constructed from selected kiln-dried North American hardwood

3. Arms shaped and sanded by hand for maximum comfort

4. Slip-on seat and back, no tools necessary

5. Water repellent and mildew resistant canvas custom dyed in the U.S.A. with the finest vat dyes available.

6. Heavy duty, corrosion resistant steel braces and hinges.

7. Finished round cross leg braces nailed securely in heavy, shaped legs

8. Self-leveling plastic glides prevent marring of floors

9. Chair folds compactly, arm assembly folds down flat, packs easily

10. Quality standards maintained and improved by independent lab testing and our own testing facilities.
