When Quality, Design & Comfort Matter

Over A Century of Quality Furniture

In 2003, Telescope celebrated our 100th anniversary, an especially exciting benchmark for our company. We thank and acknowledge all of you, our loyal employees, dealers, representatives, suppliers and consumers, for your contribution.

Based on your needs and market trends, we are making exciting plans for the next 100 years. Telescope's ability to adjust our sails in the face of economic challenges provides us with staying-power and will enable us to retain our position as an industry leader.

When you consider the many different roads Telescope has traveled to arrive at where we are today in the casual furniture industry—you will see that we have often been the pioneers, designing the process along the way and setting industry standards with award-winning products.

Going forward, we plan to introduce more new innovations and products. We are also pushing the envelope on our already high standards, with a focus on ensuring that we are doing our best in all areas of our business. Our goal is to continue

adding value to our products and remain competitive in a growing market.

We are increasing our design, research and development, and engineering efforts to create even more innovative variety for the consumer. We are revamping our manufacturing processes and seeking new supplier opportunities to help us continue to produce the best casual furniture in the nation.

This year, we continue to work closely with dealers to receive their feedback earlier in the design and manufacturing process. This approach is helping us to make meaningful adjustments to our manufacturing methods and shipping programs. This will help us work towards ensuring that the consumers are getting exactly what they want, even faster than in the past. This genuine commitment applies to our entire extensive line of furniture.

Telescope is privileged to have the strength and success of 100 years behind our offerings. We look forward to shaping the next 100 years with quality, variety, service, and delivery.

Telescope's Mission Statement

Telescope's mission is to consistently supply products that our customers can rely on for quality and value. We are committed to provide our customers with the best service possible, whether they order one unit or a thousand. Through teamwork with our dedicated workforce, we will grow and prosper for another 100 years.

Tobago Cay Cushion Collection

Tobago Cay was inspired by images of warm tropical breezes. Although reminiscent of Grandma's deep-seating, high back wicker chair, Tobago Cay's frames are actually powdercoated aluminum. For 2005, we have given the cushions a clean new look and we made them more comfortable too! The splendid transitional chair was designed to work either in a delightful seating arrangement with ottoman, two seat settee, rocker, and accessory tables, or it can be used around a dining table, or conversation table. Perfect for outdoors or in the sun room. 15 year residential warranty.

Aruba Sling Collection

Throughout the decades, our Sling Collections continue to evolve. Aruba is a stylish fresh look from the inventors of sling furniture. Its slightly higher-back seating offers added comfort and the rounded arm rests create a fresh, modern profile. The collection is priced to deliver value to frugal consumers who want high-quality furniture that is durable and easy to maintain. We have added counter height and bar height chairs to this collection, plus we have redesigned the chaise to lay completely flat. 15 year residential warranty.

A photograph of a white outdoor dining set on a balcony overlooking the ocean. The set includes a round table and two chairs, both with white frames and white fabric upholstery. The table is set with two purple wine glasses, a small plate of food, and a decorative centerpiece. The balcony has a white railing with a starburst design. In the background, there are palm trees and a view of the ocean under a blue sky with some clouds. The scene is brightly lit, suggesting a sunny day.

Features of Telescope's Quality Furniture

Telescope's Historic Commitment to Quality

Since 1903, our family-owned company has built a sound reputation based on our remarkable history, fine products, reliable quality, and exceptional service. As an established leader in casual furniture, we stand behind our products. Our customer service department is known as the best in the industry.

Design Excellence, Innovations and Awards

In the 1950's, we began producing aluminum furniture. In 1953, we invented and patented our world famous director chairs with replaceable seat covers. In the mid-1970's, we were the first to use this same technology in replaceable sling furniture. Over the years we've won many design and service awards, including recent Design Excellence awards from the International Casual Furniture & Accessory Market.

Frame Finishes and Colors

All of our powder coated aluminum collections feature the most durable finish on the market. This finish resists scratching, blistering, chipping and peeling, and is five times thicker than liquid spray paint. Powder coating is created by spraying dry polyester powder onto raw aluminum frames from guns that produce a negative charge, electrostatically attracting the colored powder to the frames. A baking process permanently sets the finish on the frame. Our Black, Green, Ivory, Desert, Espresso, Moss, Canyon and Aged Bronze finishes are offered in popular textures, while traditionally, our White remains a brilliant, glossy, pure white.

Aluminum Extrusions

At Telescope, we design and specify our own aluminum extrusions, precisely matching the application characteristics of aesthetics, strength, stiffness, bendability and cost.

Welded Parts

For added strength and beauty, Telescope products are welded together using either the MIG (Metal Inert Gas) or TIG (Tungsten Inert Gas) process, depending on the particular application. Both processes have their own distinct advantages.

Swivel Rocker Mechanism

Our swivel rocker mechanism is made from durable aluminum alloys that provide a smooth and comfortable motion. Our adjustable feature allows customers to tailor the spring tension to perfectly match their maximum comfort level.

Plastic End Caps and Spacers

Our plastic end caps and spacers are molded to match the color and shape of our frames. UV (Ultraviolet) stabilizers are added in the molding process to help protect these parts from the damaging effects of the sun.

Wood Products

Telescope's own skilled craftspeople produce wooden products in our nearly one-million square-foot plant. The fine maple, beech, yellow birch, and ash woods used in our products are carefully selected

82 from our own private land preserve in upstate New York and Vermont.

Tables

Our wide variety of tables include large and small, rectangular, round, and oval styles. Powder coated aluminum tables feature extra-strength tempered glass or solid acrylic materials. We also offer several solid top tables, including powder coated solid cast aluminum tops to coordinate with our cast collections, beautiful faux-stone tops and Werzalit tops in a variety of color ways. Plastic glides on all table legs help protect deck or patio surfaces. Packaged for easy assembly and efficient storage, many of our tables are designed to pull apart easily into three pieces (no nuts, bolts, or screws are used) and others are easily assembled using a few screws. We have made many improvements to our Designer tables making them easier to assemble and substantially more rigid after assembly.

Cushions

Our comfortable, generously-sized outdoor cushions are made of vinyl, polyester, olefin and acrylic fabrics. The stuffing is made of 100% polyester fibers that are welded by heat and pressure to maintain their loft. Water drains right through these fibers; rain is never a problem. Our easy-maintenance cushions dry quickly, resist mildew, and keep their shape longer than other cushion products on the market.

The various cushion styles either wrap over the back of the chair to give the feeling of an upholstered headrest, easily attach with fabric tabs, or fit snugly into the furniture frame. Customers can mix and match some of our cushion furniture with sling and strap options made from the same frame design.

Strap Styles

The 100% virgin PVC straps are extruded at our factory, ensuring consistent color and durability. We use only heavy-duty vinyl straps containing UV and mildew inhibitors for reliable strength, resilience, and elasticity. Our traditional style straps are secured to the frame with pins to eliminate any concerns of strap pull-out. For a smooth, unpinned

look, our newer strap design is created by heat-welding straps that securely slip into a covered aluminum extrusion. Both of these strap styles can be easily replaced for a change of color.

Sling Styles

Sling furniture is our signature product. We use extra-heavy construction in our slings to ensure that they will last. Our slings are available in heavy, high thread-count woven vinyl-coated polyester fabric, strong olefins, acrylics, or polyester/acrylic blends. UV inhibitors and plasticizers have been

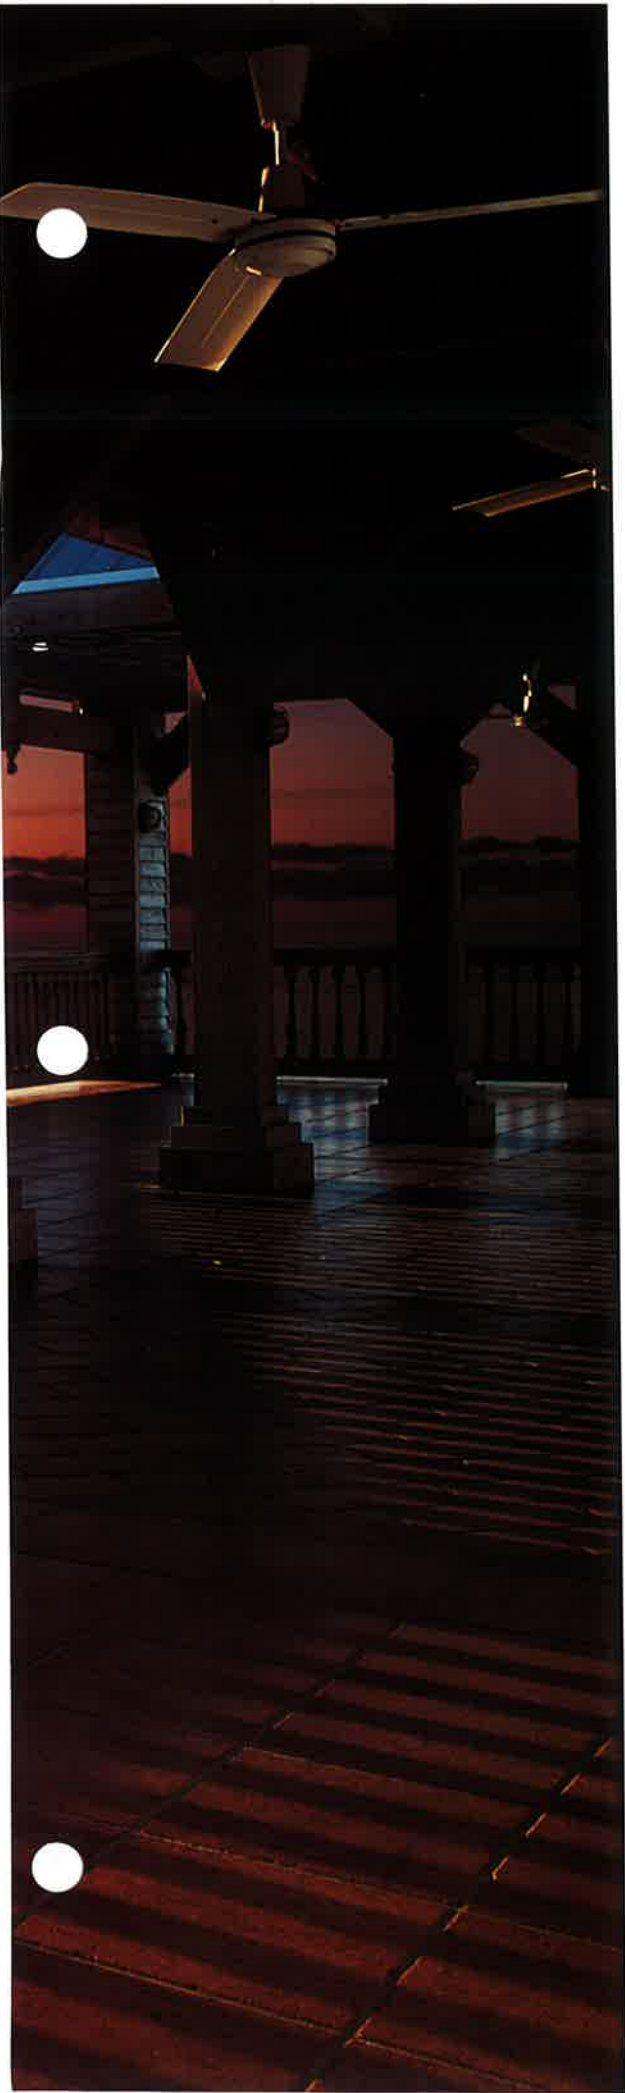

added for shape and colorfastness. During manufacturing, the fabric is cut to size, heat sealed or sewn, fitted with a dowel, and inserted into the seat rail, where it is firmly bolted into place. Sling furniture is attractive, comfortable, easy to clean, and dries quickly after inclement weather. For a change of style, our sling fabrics are replaceable.

Umbrellas

We've spent years perfecting our distinctive Market and Drape umbrellas. Our innovative Easy Lever-Lift Market umbrella locks into place automatically when the umbrella is opened. We've designed a handy tilt function that easily locks the umbrella angle in the desired position. Available with separate bases, our umbrellas coordinate beautifully with all Telescope collections. Freestanding or as a table umbrella, there's a size and style just right for every customer. Powder coated aluminum Market umbrella frames are available in colors to match our furniture collections. The Market umbrella frame is also available in ash wood. A variety of fabrics are available to coordinate umbrellas to seating arrangements. For easy cleaning, all Telescope Market umbrella covers are easily removable using heavy duty brass snaps.

World Famous & Celebrity Director Chairs

World Famous Product Selection

Telescope's World Famous Director Chair is soundly constructed using the finest solid North American hardwood. Made in the U.S.A., this is the finest chair in the industry. Canvas covers are custom dyed with the finest vat dyes available. Arms are shaped and sanded by hand for maximum comfort and smoothness. The heavy duty shaped legs of the World Famous Chair set it apart from the crowd. Corner bracing on the counter and bar height designs insure long term rigidity of these frames. Chairs fold compactly, arm assembly folds down flat, packs easily. Available in three seat heights and four frame finishes.

Top 10 Reasons for Choosing Telescope Director Chairs

Quality standards are maintained and improved by independent lab testing and Telescope's own testing facilities.

All frames are select, kiln-dried solid hardwoods. They are shaped and hand sanded.

The seating material slips into a specially designed groove. No tools are needed.

The tapered, shaped legs are nailed securely into a beveled seat block with mortise and tenon style joinery.

The arm and chair framing folds down compactly and packs easily into a box.

All back covers have a non-sag feature. One size seat and back fits all Director Chairs.

All wood parts are precision-milled, pressed together and nailed for maximum rigidity.

Extra Heavy-duty, corrosion-resistant, zinc-plated steel braces are 50% stronger than previous braces.

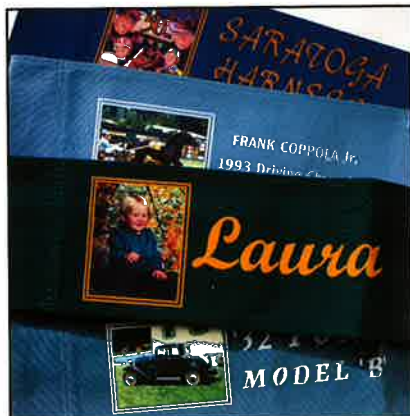

Extra-strong leg braces are nailed securely into the legs.

Self-leveling plastic glides on the legs help to prevent marring of floors. Screws make these glides easily replaceable.

The Original World Famous Director Chair

No other director chair offers you so much. Eye catching design, personal comfort, quality construction and economical pricing. Don't be fooled by imitations. Demand the original director chair by Telescope...Telescope invented the slip-in seat and back design in 1953. Patented for many years, our World Famous chair eventually became the industry standard. Perfect for Trade Shows, Exhibits, Hospitality Suites, Showrooms, Office Interiors and so much more. Ideal for Prizes, Incentives and Awards. An outstanding selection of fabrics, finishes and seat heights to choose from. We offer two styles of Director Chairs...The World Famous, and The Celebrity.

Warranty & Service

Limited Warranty

If your Telescope powder coat frame fails structurally during normal usage within 15 years from the date of purchase, we will repair, refinish or replace the frame without charge, parts and labor included. (In the case of discontinued models or finishes, we will replace the item with the closest comparable current model.) The finish is warranted against peeling, cracking or blistering for a period of 3 years from the date of purchase.

Not included in our "powder coat" warranty are table tops, umbrellas, terrace shells and market bases, wood furniture, cushions, slings and folding aluminum furniture. These products are warranted for one year to be free of manufacturing defects. Our steel market bases, if not properly maintained, will rust if the finish is scratched through to the metal. If this occurs, it must be touched up with an acrylic based paint.

The natural weathering of wood finishes, breakage of glass, fading, staining and mildewing of fabrics, slings and strapping or the compression of cushion fillings and the rusting of market bases are not covered under warranty.

This warranty does not cover the failure of furniture that, in our opinion, was caused by acts of God, accident, neglect, improper shipping or handling, or by unreasonable or abusive use, and is void if our care and maintenance instructions were not properly followed.

Furniture used in a commercial setting is not warranted unless it is specifically designated for commercial use as noted by a CQ (commercial quality) in our price index, in which case it is warranted for one year from the date of purchase. Furniture stored outside or in other cold storage should be drained of any water. If allowed to freeze inside the furniture, water can damage the tubing. Such damage is not covered under our product warranty.

To obtain service, contact our Customer Service Department in writing at Telescope Casual Furniture, Inc., 82 Church Street, Granville, NY 12832, stating the problem and providing proof of purchase. A Return Merchandise Authorization will be sent to you giving instructions for returning items if necessary. No returns will be accepted by our factory without prior written authorization from our Customer Service Department. After authorization is received your furniture must be returned to the factory in proper packaging, freight prepaid.

This warranty applies only to furniture manufactured by Telescope Casual Furniture, Inc., after September 1, 1986 and is limited to 15 years from the date of purchase. This warranty is in lieu of any other warranty, expressed or implied by law. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
