CFR's Manufacturer of the Year

The Casual Furniture Retailers Association (CFR) presented Telescope Casual Furniture with the *Manufacturer Leadership Award* at the January 2005 All-Industry Forum in Atlanta, Georgia. The stringent criterion for this major award includes excellence in design, product quality, merchandising, customer service, ethics, communications and trade relations.

A Century-Long Journey to Excellence

Even after more than 100 years in the industry, Telescope Casual promises one thing will always remain the same. "Change," states the outdoor living manufacturer's CEO, Kathy Juckett.

"Not simply for the sake of change, but for excellence and to grow our business," she explains. This enthusiastically embraced idea recently led the Granville, N.Y.-based company to a pinnacle of the industry - recognition through the Casual Furniture Retailers Association Manufacturer Leadership Award.

While the honor represents a culmination of sorts, Juckett emphasizes the company will never stop striving for new summits. "It's always 'What's next?' for us" she says. Juckett is clearly proud of what the Telescope Casual team has been able to accomplish. "We have a fantastic organization," she remarks. "Each time we've challenged our team to reach for something they've delivered."

Besides the CFRA, the *Design Journal* also recently saluted the firm by bestowing its ADEX award. Retailers, too, have been quick to extend high praise. "Telescope has become a shining star in the industry," states Petey Fleischut, co-owner and operator of Delaware-based Casual Marketplace. "Some of the most amazing visions for the new products have come from Telescope Casual."

In an industry where design differentiation is crucial for success, Telescope has become known for its ability to stand out in a crowded, competitive marketplace. "Telescope Casual's Northampton Collection is a perfect example of this," says Craig Chapello, Chief Retail Officer of Illinois-based Fireplace & Patio. "It looks like traditional wood bench furniture, but is made from aluminum for greater durability and ease of maintenance."

"They probably exceed most retailers' expectations," believes Jeff Bender, Vice President of Florida-based Sunniland Patio. The century-old manufacturer achieves this not only by consistently turning out unique products, but also by maintaining an unwavering stance with respect to quality. Telescope Casual's Juckett explains: "There's always a temptation in this business to sacrifice quality in order to achieve a better price point. We've consciously decided against that"

Telescope's focus on quality permeates every aspect of how the firm does business. "It may sound cliché, but our goal is to have the very best customer service in the industry," CEO Juckett says.

Gardenella Strap Chaise

5 year contract warranty on frame.

2" wide extruded vinyl straps made of 100% virgin vinyl and UV stabilizers for colorfastness.

Strap locks securely in specially designed channel. Individual straps can be replaced if necessary.

Our chaise is resistant to tipping... even if you sit on the headrest.

15" bed height vs. the competition's 13" height makes it easier to get in and out of chaise.

Unlimited stacking for easy storage.

Brass or aluminum hardware resists corrosion.

High strength 1 1/4" aluminum tubing for added strength.

Sun Bed Flat Chaise offers generous length of 75"

The back is the same width as the seat, enhancing comfort and appearance.

Our four position chaise back adjusts from 60° upright to truly flat for use as a sun bed.

No dangerous pinch points.

Durable aluminum ratchets rest on plastic guards to protect finish.

Catch bar insures that headrest will not fold forward.

Dual frame construction for added strength.

Durable replaceable plastic skid plates protect both chaise and decking surface.

Windham Contract Strap Chaise

Choose your own eye catching color combination.

Straps are fade-resistant and stand up to the elements.

Resilient strapping won't permanently sag after long use.

Available in 9 finishes and 37 strap colors.

Replaceable straps are securely pinned for extra durability.

77" long when laid flat.

Telescope's straps are simple to clean.

15" seating height for easy in and out.

Extra-durable aluminum frames are an excellent companion to straps.

Straps are closely positioned to avoid uncomfortable gaps.

High density polyethylene and nylon skid glides prevent marring of decks.

Stackable for easy storage.

Features of Telescope's Quality Furniture

Telescope's Historic Commitment to Quality

Since 1903, our family-owned company has built a sound reputation based on our remarkable history, fine products, reliable quality, and exceptional service. As an established leader in casual furniture, we stand behind our products. Our customer service department is known as the best in the industry.

Design Excellence, Innovations and Awards

In the 1950's, we began producing aluminum furniture. In 1953, we invented and patented our world famous director chairs with replaceable seat covers. In the mid-1970's, we were the first to use this same technology in replaceable sling furniture. Over the years we've won many design and service awards, including recent Design Excellence awards from the International Casual Furniture & Accessory Market.

Frame Finishes and Colors

All of our powder coated aluminum collections feature the most durable finish on the market. This finish resists scratching, blistering, chipping and peeling, and is five times thicker than liquid spray paint. Powder coating is created by spraying dry polyester powder onto raw aluminum frames from guns that produce a negative charge, electrostatically attracting the colored powder to the frames. A baking process permanently sets the finish on the frame. Our Black, Green, Ivory, Desert, Espresso, Moss, Canyon and Aged Bronze finishes are offered in popular textures, while traditionally, our White remains a brilliant, glossy, pure white.

Aluminum Extrusions

At Telescope, we design and specify our own aluminum extrusions, precisely matching the application characteristics of aesthetics, strength, stiffness, bendability and cost.

Welded Parts

For added strength and beauty, Telescope products are welded together using either the MIG (Metal Inert Gas) or TIG (Tungsten Inert Gas) process, depending on the particular application. Both processes have their own distinct advantages.

Swivel Rocker Mechanism

Our swivel rocker mechanism is made from durable aluminum alloys that provide a smooth and comfortable motion. Our adjustable feature allows customers to tailor the spring tension to perfectly match their maximum comfort level.

Plastic End Caps and Spacers

Our plastic end caps and spacers are molded to match the color and shape of our frames. UV (Ultraviolet) stabilizers are added in the molding process to help protect these parts from the damaging effects of the sun.

Wood Products

Telescope's own skilled craftspeople produce wooden products in our nearly one-million square-foot plant. The fine maple, beech, yellow birch, and ash woods used in our products are carefully selected from our own private land preserve in upstate New York and Vermont.

Tables

Our wide variety of tables include large and small, rectangular, round, and oval styles. Powder coated aluminum tables feature extra-strength tempered glass or solid acrylic materials. We also offer several solid top tables, including powder coated solid cast aluminum tops to coordinate with our cast collections, beautiful Laminate tops and Werzalit tops in a variety of color ways. Plastic glides on all table legs help protect deck or patio surfaces. Packaged for easy assembly and efficient storage, many of our tables are designed to pull apart easily into three pieces (no nuts, bolts, or screws are used) and others are easily assembled using a few screws. We have made many improvements to our Designer tables making them easier to assemble and substantially more rigid after assembly.

Cushions

Our comfortable, generously-sized outdoor cushions are made of vinyl, polyester, olefin and acrylic fabrics. The stuffing is made of either 100% polyester fibers that are welded by heat and pressure to maintain their loft or a combination of polyester fibers and reticulated "rain-through" foam. Water drains right through these cushions; rain is never a problem. Our easy-maintenance cushions dry quickly, resist mildew, and keep their shape longer than other cushion products on the market.

The various cushion styles either wrap over the back of the chair to give the feeling of an upholstered headrest, easily attach with fabric tabs, or fit snugly into the furniture frame. Customers can mix and match some of our cushion furniture with sling options made from the same frame design.

Strap Styles

The 100% virgin PVC straps are extruded at our factory, ensuring consistent color and durability. We use only heavy-duty vinyl straps containing UV and mildew inhibitors for reliable strength, resilience, and elasticity. Our traditional style straps are secured to the frame with pins to eliminate any concerns of strap pull-out. For a smooth, unpinned

look, our newer strap design is created by heat-welding straps that securely slip into a covered aluminum extrusion. Both of these strap styles can be easily replaced for a change of color.

Sling Styles

Sling furniture is our signature product. We use extra-heavy construction in our slings to ensure that they will last. Our slings are available in heavy, high thread-count woven vinyl-coated polyester fabric, strong olefins, acrylics, or polyester/acrylic blends. UV inhibitors and plasticizers have been

added for shape and colorfastness. During manufacturing, the fabric is cut to size, heat sealed or sewn, fitted with a dowel, and inserted into the seat rail, where it is firmly bolted into place. Sling furniture is attractive, comfortable, easy to clean, and dries quickly after inclement weather. For a change of style, our sling fabrics are replaceable.

Umbrellas

We've spent years perfecting our distinctive Market and Drape umbrellas. Our innovative Easy Lever-Lift Market umbrella locks into place automatically when the umbrella is opened. We've designed a handy tilt function that easily locks the umbrella angle in the desired position. Available with separate bases, our umbrellas coordinate beautifully with all Telescope collections. Freestanding or as a table umbrella, there's a size and style just right for every customer. Powder coated aluminum Market umbrella frames are available in colors to match our furniture collections. The Market umbrella frame is also available in ash wood. A variety of fabrics are available to coordinate umbrellas to seating arrangements. For easy cleaning, all Telescope Market umbrella covers are easily removable using heavy duty brass snaps.

World Famous & Celebrity Director Chairs

World Famous Product Selection

Telescope's World Famous Director Chair is soundly constructed using the finest solid North American hardwood. Made in the U.S.A., this is the finest chair in the industry. Canvas covers are custom dyed with the finest vat dyes available. Arms are shaped and sanded by hand for maximum comfort and smoothness. The heavy duty shaped legs of the World Famous Chair set it apart from the crowd. Corner bracing on the counter and bar height designs insure long term rigidity of these frames. Chairs fold compactly, arm assembly folds down flat, packs easily. Available in three seat heights and four frame finishes.

Top 10 Reasons for Choosing Telescope Director Chairs

Quality standards are maintained and improved by independent lab testing and Telescope's own testing facilities.

All back covers have a non-sag feature. One size seat and back fits all Director Chairs.

All frames are select, kiln-dried solid hardwoods. They are shaped and hand sanded.

The seating material slips into a specially designed groove. No tools are needed.

All wood parts are precision-milled, pressed together and nailed for maximum rigidity.

The tapered, shaped legs are nailed securely into a beveled seat block with mortise and tenon style joinery.

Extra Heavy-duty, corrosion-resistant, zinc-plated steel braces are 50% stronger than previous braces.

The arm and chair framing folds down compactly and packs easily into a box.

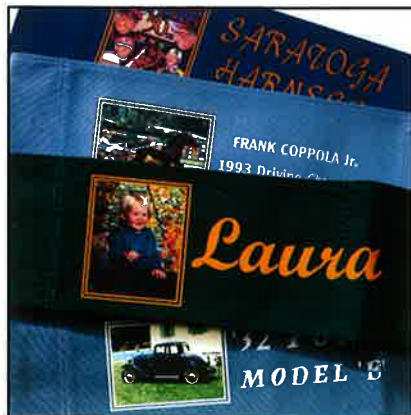

Extra-strong leg braces are nailed securely into the legs.

Self-leveling plastic glides on the legs help to prevent marring of floors. Screws make these glides easily replaceable.

Warranty & Service

Limited Warranty

If your Telescope powder coat frame fails structurally during normal usage within 15 years from the date of purchase, we will repair, refinish or replace the frame without charge, parts and labor included. (In the case of discontinued models or finishes, we will replace the item with the closest comparable current model.) The finish is warranted against peeling, cracking or blistering for a period of 3 years from the date of purchase.

Not included in our "powder coat" warranty are table tops, umbrellas, terrace shells and market bases, wood furniture, cushions, slings and folding aluminum furniture. These products are warranted for one year to be free of manufacturing defects. Our steel market bases, if not properly maintained, will rust if the finish is scratched through to the metal. If this occurs, it must be touched up with an acrylic based paint.

The wicker fiber featured in our Savona Wicker Collection is warranted by the fiber manufacturer for 3 years from the date of purchase. Please refer to our Price Index or contact our Customer Service Department for details on this wicker fiber warranty.

The natural weathering of wood finishes, breakage of glass, fading, staining and mildewing of fabrics, slings and strapping or the compression of cushion fillings and the rusting of market bases are not covered under warranty.

This warranty does not cover the failure of furniture that, in our opinion, was caused by acts of God, accident, neglect, improper shipping or handling, or by unreasonable or abusive use, and is void if our care and maintenance instructions were not properly followed.

Furniture used in a commercial setting is not warranted unless it is specifically designated for commercial use as noted by a CQ (commercial quality) in our price index, in which case it is warranted for one year from the date of purchase. Furniture stored outside or in other cold storage should be drained of any water. If allowed to freeze inside the furniture, water can damage the tubing. Such damage is not covered under our product warranty.

To obtain service, contact our Customer Service Department in writing at Telescope Casual Furniture, Inc., 82 Church Street, Granville, NY 12832, stating the problem and providing proof of purchase. A Return Merchandise Authorization will be sent to you giving instructions for returning items if necessary. No returns will be accepted by our factory without prior written authorization from our Customer Service Department. After authorization is received your furniture must be returned to the factory in proper packaging, freight prepaid.

This warranty applies only to furniture manufactured by Telescope Casual Furniture, Inc., after September 1, 1986 and is limited to 15 years from the date of purchase. This warranty is in lieu of any other warranty, expressed or implied by law. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
